

Friends of Open Hearth Park Sponsorship Program

The sponsorship program provides the opportunity for families, individuals, businesses or community groups, to sponsor operations or create infrastructure within the park. Sponsors under this program will provide supplemental funding to enhance the public enjoyment and maintain the long-term viability of the park facilities.

Sponsors of these programs will receive recognition and/or advertising space within the specified area, a framable certificate and print of the specific item and all packages include maintenance and upkeep.

Sponsorships are available on a first come, first-serve basis and most construction efforts associated with the package will be completed between May and December, where seasonal construction permits.

Sponsorships are available at any time in a somewhat limited capacity. All annual packages will last for a period of twelve months from installation of appropriate sponsorship.

Please utilize the provided sponsorship form for the Friends of Open Hearth Park to make application and secure your opportunity to support the park

Please note: Nova Scotia Lands Inc. reserves the right to deny or limit applications for any of these programs

Friends of Open Hearth Park Sponsorship Program
